Negotiations will not entail any substantial deviation to the terms and conditions of the Request for Proposal, but shall have the purpose of obtaining from the Candidates better conditions in terms of technical quality, implementation periods, payment conditions, etc.

Negotiations may however have the purpose of reducing the scope of the services or revising other terms of the Contract in order to reduce the proposed remuneration when the proposed remunerations exceed the available budget.

A.17. Overall Evaluation and Award of Contract

Offers will be ranked according to their combined technical (St) and financial (Sf) scores using the weights of <75>% for the technical proposal; and <25>% for the offered price. Each offer's overall score shall therefore be: $St \times <75>\% + Sf \times <25>\%$.

A.19. Cancellation for convenience

LWF may for its own convenience and without charge or liability cancel the procedure at any stage.

These documents comprise any documentation concerning income and expenditure and any inventory, necessary for the checking of supporting documents, including timesheets, plane and transport tickets, pay slips for the remuneration paid to the experts and invoices or receipts for reimbursable expenditure. Failure to maintain such records constitutes a breach of contract and will result in the termination of the contract.

ANNEX 6: CODE OF CONDUCT FOR CONTRACTORS

CODE OF CONDUCT FOR CONTRACTORS

ETHICAL PRINCIPLES AND STANDARDS

By this Code of Conduct, LWF applies ethics to procurement. We expect our Candidates to act socially and environmentally responsible and actively work for the implementation of the standards and principles in this Code of Conduct. The Code of Conduct is applicable for all our Candidates who supply goods, services and works to our operations and projects.

This Code of Conduct and its related principles and standards are based on recommendations from the UN Global Compact principles¹ and ECHO's Humanitarian Aid Guidelines for Procurement 2011².

General Conditions

The Code of Conduct defines the ethical requirements and standards for our Candidates, whom we expect to sign and respect the Code of Conduct, and work actively towards the implementation hereof. By signing the Code of Conduct Candidates agree to place ethics central to their business activities.

The provision of the ethical standards constitutes minimum rather than maximum standards. International and national laws shall be complied with, and where the provisions of law and LWF's standards address the same subject, the highest standard shall apply.

It is the responsibility of the Candidate to assure that their Candidates and sub-contractors comply with the ethical requirements and standards set forth in this Code of Conduct.

LWF acknowledge that implementing ethical standards and ensuring ethical behaviour in our supply chain is a continuous process and a long term commitment for which we also have a responsibility. In order to achieve high ethical standards for procurement we are willing to engage in dialogue and collaboration with our Candidates. In addition we expect our Candidates to be open and willing to engage in dialogue with us to implement ethical standards for their businesses.

Unwillingness to co-operate or serious violations of the Code of Conduct will lead to termination of contracts.

Human Rights and Labour Rights

Candidates must at all times protect and promote human- and labour rights and work actively to address issues of concern. As a minimum they are obliged to comply with the following ethical standards:

- *Respect for Human Rights* (UN Universal Declaration of Human Rights)

The basic principles of the Universal Human Rights are that all human beings are born free and equal in dignity and in rights, and everyone has the right to life, liberty and security of the person. A child is defined as a person under the age of 18 and children shall not be engaged in labour that compromise their health, safety, mental and social development, and schooling. Children under the age of 15 (in developing countries 14) may not be engaged in regular work, but children above the age of 13 (in developing countries 12) can be engaged in light work if it does not interfere with compulsory schooling and is not harmful to their health and development.
- *Employment is freely chosen* (ILO Convention C29 & C105)
Candidates must not make use of forced or bonded labour and must respect workers freedom to leave their employer.
- *Freedom of association and the right to collective bargaining* (ILO Convention C87 & C98)
Candidates must recognise workers right to join or form trade unions and bargain collectively, and should adopt an open attitude towards the activities of trade unions (even if this is restricted under national law).
- *Living wages are paid* (ILO convention C131)
As a minimum, national minimum wage standards or ILO wage standards must be met by Candidates. Additionally a living wage must be provided. A living wage is contextual, but must always meet basic needs such as food, shelter, clothing, health care and schooling and provide a discretionary income⁴ - which is not always the case with a formal minimum wage.
- *No discrimination in employment* (ILO Convention C100 & C111 and the UN Convention on Discrimination against Women)
Candidates must not practice discrimination in hiring, salaries, job termination, retiring, and access to training or promotion - based on

All Work performed must be on the basis of a recognised employment relationship established through international conventions and national law. Candidates must protect vulnerable group's regular employment under these laws and conventions and must provide workers with a written contract.

International Humanitarian Law

Candidates linked to armed conflicts or operating in armed conflict settings shall respect civilian's rights under International Humanitarian Law and not be engaged in activities which directly or indirectly initiate, sustain, and/or exacerbate armed conflicts and violations of International Humanitarian Law⁵. Candidates are expected to take a 'do no harm' approach to people affected by armed conflict.

Additionally, Candidates shall not be engaged in any other illegal activity.

Involvement in Weapon Activities

LWF advocates for the Ottawa Convention against landmines and the Convention on Cluster Munitions against cluster bombs. Candidates shall not engage in any development, distribution, sale, or manufacturing of anti-personnel mines, cluster bombs, components, or any other weapon which feed into violations of International Humanitarian Law and Human Rights.

Protection of the Environment

LWF wishes to minimise the environmental damages applied to nature via our procurement activities and we expect our suppliers and Candidates to act in an environmentally responsible manner. This involves respecting applicable national and international environmental legislation and acting in accordance with the Rio Declaration.

As a minimum Candidates should address issues related to proper waste management, ensuring recycling, conservation of scarce resources, and efficient energy use.

Anti-Corruption

Corruption is by LWF defined as the misuse of entrusted power for private gain and it includes bribery, fraud, embezzlement and extortion. LWF holds a great responsibility to avoid corruption and ensure high standards of integrity, accountability, fairness and professional conduct in our business relations. Candidates are expected to have the same approach by undertaking good and fair business ethics and practices, take action to prevent and fight corruption, and abide by international conventions as well as international and national laws. To fight corruption and promote transparency, Candidates who are confronted with corrupt practices are advised to file a complaint in a Complaint Mechanism⁶.

A Candidate's involvement in any form of corrupt practice during any stage of a selection process, in relation to the performance of a contract or in any other business context is unacceptable and will lead to the rejection of bids or termination of contracts.

- **Welding and Inspection:** Include welding standards (AWS D1.1 or API 650) and require that they provide a certificate for Non-Destructive Testing (NDT) for weld quality.
- **Coating:** Detail paint type and thickness (e.g., epoxy) to ensure durability in Garissa/ Dadaab environment.
- **Mounting:** Clarify foundation or anchoring requirements to ensure stability, specifying any need for reinforced concrete or additional supports.

2. Expanding Scope of Work

- **Safety and Environmental Compliance:** Ensure vendors follow relevant safety and

environmental standards during fabrication, transport, and installation.

- **Fuel Containment:** Add a bund wall or similar system for spill containment.
- **Backup Systems:** Mention backup power or manual overrides for the dispensing pump in case of generator failure.

3. Vendor Requirements

- **Remote Experience:** Require at least three past projects in remote areas, with references.
- **Quality Assurance:** Vendors should submit a QA/QC plan with key inspection points as part of their technical proposal.
- **Licensing:** Ensure vendors have the necessary certifications (e.g., KEBS for tanks and pumps) and also from EPRA.

4. Selection Criteria

- **Technical Proposal:** Emphasize methodology, safety plans, and timeline management, including Gantt charts.
- **Financial Proposal:** Distinguish between global cost and itemized breakdowns to verify scope understanding.

5. Timelines

- **Contingencies:** Include a buffer for potential delays, accounting for local challenges like weather or supply issues.

6. Environmental and Social Responsibility

- Require an environmental and social responsibility plan covering waste management and local labor engagement.

7. Vendor Interviews

- Reserve the right to interview top candidates, particularly for complex projects in remote locations like Dadaab.
